### APA Style 7th Edition Guide

Commonly used in the social sciences, APA style emphasizes the year of publication, which is placed immediately after the author. To introduce the Bibliography, the word ‘References’ should be centred and bolded. Acknowledge authors, whose words or ideas you have used, in two places in your essay: in the ‘References’ section and in the body of the essay via in-text citations.

APA 7th edition was introduced in October of 2019. For the first time, there are different formatting conventions for student and professional papers (i.e., papers written for credit in a course and papers intended for publication). These differences mostly extend to the title page and running head. Crucially, citation practices do not differ between the two styles of paper.

#### Most Notable Changes

- Publisher’s location is no longer included for books.
- In-text citations of works with more than two authors are shortened to the first author’s name, then “et al.”
- Up to 20 authors of a work are listed in the reference section.
- DOIs are formatted as URLs (<https://doi.org/10.7202/301385ar>).
- URLs are no longer preceded by “retrieved from”.
- The format of a book (e-book, kindle book, etc) is no longer included in the reference, while the publisher’s name is.
- E-books are treated the same as print books. You do not include the format of the book (e-book, Kindle) and do include the publisher’s name. You still provide a DOI or link to the work.

#### Formatting Checklist (References & In-text Citations)

- Double-space entries.
- Indent the second and subsequent lines of each Reference (hanging indent).
- In Reference entries, invert all authors’ names; give last names and initials for up to and including 20 authors.

## **Books**

Capitalize only the first word of book titles and subtitles and any proper nouns. When quoting word for word, always provide the author(s), and year of publication. When quoting word for word, provide specific page number(s). When paraphrasing, page numbers are optional. Include a DOI or URL if the book has one, otherwise APA treats online and print books the same.

## Indirect Quotes

### **One author quotes another**

e.g. In a 2010 book by K. Anderson, you find a quote taken from Karl Marx' Collected Works (1975).

In the body of your essay, cite both authors, indicating the author of the original quote (Marx) in your sentence, and the author in whose work you found the quote (Anderson), in an in-text citation.

“Marx astutely predicted that the railroad would “become the forerunner of modern industry.” (as cited in Anderson, 2010, p. 5).

In the Reference list, cite only the author in whose secondary source you found the quote (Anderson)
